

MARCH 31/05

I started dealing with Tim in 1999, at first doing my income taxes. As time went by he began to explain about retirement planning which was something I had wanted to look into, but never got around to it. With Tim's expert help I now have a plan in place + he is always there to answer my questions.

When my wife passed away in Jan 04, Tim showed great compassion + caring in my situation + was always there to guide me through all the financial things that were created.

I would highly recommend Tim to anyone looking for someone who is on top of their game in financial matters.
